Reduce Water Waste 50% to 96%
Install With New or Existing Humidifier
Easy to Install!
6 Settings Allow for Maximum Water Savings
Fits Any Model Bypass Flow-Through Humidifier

Water Facts

- Less than 1% of the earth's water can be used as a drinking source.
- While the population and the demand on freshwater resources are increasing, supply remains constant and many regions are starting to feel the pressure.
- Conserving water is not only essential to our wellbeing, but also has financial benefits.
- 40 of 50 state water managers are expecting water shortages in some portion of their states under average conditions in the next 10 years.
- Installing the Water Savor™ Controller is a great way to reduce water waste and save money, *without* changing your lifestyle or comfort!

1 Source: EPA

Innovation at It's Finest

- **Smart Device!** Your new Water Savor™ Controller automatically powers on when there is a call for humidity, limiting the amount of water delivered to the Vapor Pad®. The Vapor Pad® is still adequately moistened to provide humidity, yet less water goes through the pad to be released down the drain.
- **Adjustable Settings:** Six settings allow you to adjust the controls for maximum water savings without affecting humidifier output. (See installation manual for more information.)
- **Reduce a Minimum of 50%:** Tested humidifiers using the Water Savor™ Controller resulted in a minimum of 50% reduction of water draining from the humidifier, and up to 96% with customized settings!
- **Install With Any Model Bypass Flow-Through Humidifier!** No matter the humidifier brand, the Water Savor™ Controller will work to reduce water waste, save you money *and* preserve the environment. Install the GeneralAire® Water Savor™ Controller today and *Breathe Healthier.*

Connect Your Water Savor™ Controller in Minutes!

Possible Water Savings With WaterSavor™

Water Released <i>Without</i> Water Savor™	Water Released <i>With</i> Water Savor™

= 1,000 gallons of water

* Results are based on 20 minutes per hour @ a 5-month heating season
* Results vary greatly based on: humidifier model, humidification demand, humidification season duration and more.

Do NOT install with fan-powered or drum humidifiers.

Every drop of water saved today means a better tomorrow for you and your family!
